Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful!

SMOKING TOBACCO FACTS FROM THE ENCYCLOPAEDIA

The Use of Flavorings Determines Difference in Brands

The Encyclopedia Britannica says about the manufacture of smoking tobacco: "on the Continent and in America, certain 'sauces' are employed... the use of the 'sauces' is to improve the flavor and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the flavoring used as upon the tobacco.

Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands: pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smoke best in your pipe, you can rest assured.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.

The many friends of Fred Franklin, Jr., are glad to see him among us again after a year in the service, five months of which was spent in France. After a visit here with his parents he will leave for Los Angeles, Cal.
